

How to tell what type of DPMS LR-308 receiver you have.

Notice height difference on the top portion of the rear of the DPMS LR-308 receiver.

The new “Low Profile” upper receiver has a **1/8”** wide top portion where the charging handle is installed. See below:

The older “High Profile” upper receiver has a **3/16”** wide top portion where the charging handle is installed. See below:
